About us

Intelligent, is being able to understand,
Understand the needs to find solutions,
Understand the value of pioneers
Understand what is different to bring something different.
Smart is feeling good when you want to feel good.
Smart is responsible, smart is low consumption,
smart is living with what you need to live,
Smart is in color,
Smart is to raise, lower, turn on, turn off, care, heat everything when life asks you to.
Smart is simple, smart is knowledge, smart is sound.
Smart is less and is more in the right measure.
Smart is the exact time.
Being smart is a responsibility

VTA+
Making the world smarter

VTA+ is a leading company in the design, development, and integration of technological products into Smart Home.

Our international experience allows us to work with distributors, retailers, wholesalers and integrators. We have more than 20 years of experience developing technological solutions that optimize price and quality. We have “all-in-one” technology, and friendly installation, that quickly integrates an easy-to-use mobile application into homes, spaces and companies.

Voice Assistant

Control the smart devices in your home with our easy-to-use app and make your life easier and more convenient.

just ask | alexa

works with Siri Shortcuts

works with Google Assistant

- WIFI
- Easy to Setup
- Scenarios and automations with other devices
- Notifications on your mobile devices
- Categories for the whole family
- Support integrated in the APP (with setup videos)
- APP multilanguage
- Video security devices with cloud storage
